

Bellevue Downtown Parking and Commute Management Pilot Program Brief for Employers 8/30/21

The City of Bellevue's Choose Your Way Bellevue Business Services (CYWB) is offering employers in Downtown Bellevue a chance to participate in the Downtown Parking and Commute Management Pilot Program.

The purpose is to promote and incentivize daily parking options throughout downtown which enables existing parking capacity to be fully utilized, avoiding idle stall capacity and future parking capacity expansions. This will preserve the health and vibrancy of Downtown Bellevue and will enable employees to consider a variety of commute options as daily choices.

Participating employers will gain access to a customized web and app dashboard that displays and integrates with multiple parking lots throughout Downtown Bellevue. Through incentives, participants may be able to use a reduced or rebated daily rate at these specific lots and will be able to reserve the space ahead of time at the rate too.

If your organization would like to be considered for this initial phase, please contact CYWB staff at info@CYWB.org or 425-283-1356.
