

BIKE TRAIN

The Bike Train involves adults who supervise children riding their bikes to school. For more information, visit www.SafeRoutesInfo.org.

Here are suggestions for setting up and conducting your Bike Train:

- Invite families who live nearby to ride together
- Pick a route and take a test ride
- Decide how often the group will ride together
- Have a plan for late comers, illness, and what happens to your rotation in the event of school holidays or late starts.
