

# CARPOOL

Carpooling is one of the ways to reduce traffic congestion around schools. The Bellevue SchoolPool team will provide online platforms and applications to help schools and families find a carpool partner. Carpooling with friends and neighbors is a great way to begin.

## **Establishing and conducting your carpool**

- Meet the person with which you would like to carpool
- Exchange contact and other information to ensure all parties feel comfortable with the arrangement
- Come up with a plan for late comers, illness, school holidays, and late starts
- Enjoy the benefits of carpooling

**NOTE:** Bellevue SchoolPool does not screen carpool partners. This is up to the discretion of each parent.
