

Parking Pilot Participation Opportunity for Downtown Bellevue Employers

November 2021

Choose Your Way Bellevue Business Services (CYWB) is offering employers in Downtown Bellevue a chance to participate in the Downtown Daily Parking Pilot program.

The purpose of the pilot is to promote and incentivize daily parking options throughout downtown, in order to reduce demand for monthly parking pass options. With the pandemic affecting how employees are all getting to and from the office, the city is hoping to facilitate the widespread adoption of a more on-demand daily option, enabling more employees to get to work without having to deal with congestion and parking issues.

After signing up for the pilot, employers will gain access to a customized web and app dashboard that displays and integrates with multiple parking lots throughout Downtown Bellevue. As a pilot participant, employers will be able to use a reduced daily rate at these specific lots, and will be able to reserve the space ahead of time at the reduced rate.

Outside of specific parking parameters, participants will also potentially have access to a variety of other mobility resources including carpool and cycling information to use alongside the daily incentivized rates.

If you are interested in participating, please contact us at info@cywb.org or call 425-283-1356.

For more information, please visit the CYWB website [here](#).
